<p><b>BENEFIT</b> ☀</p>  <p>The farmer decides not to use herbicide and allows some other wild flowers to grow in the crop.</p> <p>Go Forward 2 Spaces</p>	<p><b>HAZARD</b> ☀</p>  <p>You've spent all your foraging time in this flower bed of roses but they are all double blooms.</p> <p>Go Back 2 Spaces</p>	<p><b>HAZARD</b> ☀</p>  <p>The farmer decided to mow the meadow a month early so all the flowers are gone.</p> <p>Go Back 3 Spaces</p>	<p><b>HAZARD</b> ☀</p>  <p>You've returned to a patch of grassland only to find it has been changed into a car park.</p> <p>Go Back 3 Spaces</p>	<p><b>HAZARD</b> ☀</p>  <p>An unusually late frost has shocked your favourite patch of flowers into a late bloom.</p> <p>Go Back 1 Spaces</p>	<p><b>HAZARD</b> ☀</p>  <p>A family decide to put decking over their garden, covering up all the flower beds.</p> <p>Go Back 1 Spaces</p>

**HAZARD** ☀

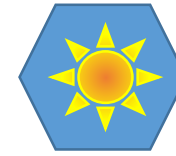

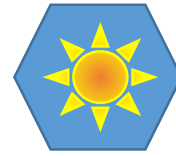

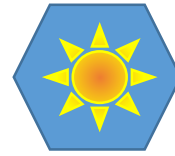

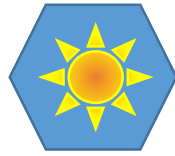

The farmer has sprayed the field with pesticide to kill insects which eat the crops but it's also harmful to bees.

Go Back 2 Spaces

**Game Rules :**

- Each player picks a Bee card at random.
- Number on Bee card decides your starting order, lowest first.
- Move clockwise from START to FINISH by rolling one 6-sided dice.
- You must stop at WINTER and roll a 6 to continue.
- If you land on space next to a square flower and you do not have a long tongue you must move back 1 space.
- ☀ If you land on a ☀ space pick up a CHANCE card and follow the instructions provided.
- ! If you land on a ! space roll a dice. If you roll an odd number a Cuckoo Bee has invaded your colony and you must miss your next turn. Unless you are the Tree Bumblebee which has no Cuckoo Bee in the U.K.
