

AGRITECH CAREERS FOR A SUSTAINABLE FUTURE

John Innes Centre | 17th March 2026

Could you be part of the global agricultural revolution?

Agritech combines science, technology and engineering to generate innovative ideas to provide sustainable solutions for global problems.

With a changing climate and rising population, improvements to sustainable agriculture are vital to ensuring global food security for the future.

Join us for this free one day course where, through a series of engaging discussions and interactive sessions, you'll learn about the diverse careers in agritech and have access to world leading researchers and industry experts. We're looking for passionate first year college/sixth form students from Norfolk and Suffolk to take part in this unique opportunity.
